PLEASE EVALUATE:

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

I enjoyed the course. For this to be an English course it provoked more thought about writing in a more cultural way rather than the standard literal teachings. In regards to the material, I feel as though every project was reasonable for the week course except the last one. There were many factors that needed to be included and only enough time to get a decent project. I believe the grading on that material was still very fair, but there should possibly be a revision of the projects.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

The instructor was great! I enjoyed his personality and enthusiasm for the course. I would absolutely recommend him to other students. He was also very helpful with all of students in the class.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

The class was a success because of the collective class participation. The people that actually came to class and had input in every discussion made the class more interesting and made 2 hours for 4 weeks not seem as bad.

PLEASE EVALUATE:

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

Overall, I found the course material to be interesting in the average case. A couple of the essays we read did not seem to offer enough content to compensate for how dry the text was.

I enjoyed the videos and felt that they provided a good alternative way to emphasize some of the points in the reading.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

The instructor did a great job. Content was presented in an enthusiastic manner. I generally don't like writing but I found myself drawn in by his genuine interest in the topics.

The only significant suggestion I would make is explain what genre of text you're looking for in the different assignments a little more rather than just naming it.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

The discussions with my peers and the instructor were interesting and involving.

I attended class on a regular basis and attempted participate regularly as well.

PLEASE EVALUATE:

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

I really enjoyed the course. I think after leaving this class, I will become a better writer. I feel more confident about writing now. The book was essential to the class; in high school, the way of teaching writing I think is outdated and I believe this book can help many students. The reading responses were a great way to learn to analyze articles, and it will help me in the future.

- The only thing I would change in the course would be to incorporate the reading responses into a blog.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

Great professor. Really inspired me to become a better writer. Created a fun but serious atmosphere that led to good discussions. He was very quick to respond to questions about assignments or the course.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

The course load was intense for four weeks but I believe if it was a semester long, it would be easier.

- In on

PLEASE EVALUATE:

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

I feel that the required text, *Writing about Writing* was extremely helpful and really gave myself a different way of view the world around me. It has stimulated many conversations which allows for opinion but w/ structure. While the papers were probably the 2 hardest I've ever written it pushed me to find a thesis or a niche and find evidence to support it.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

I found the instructor helpful in a non intimidating way. I personally am a very shy writer and rarely allow others to read my work, but through the push of the peer reviews I found that bouncing your ideas and getting their opinion is crucial to writing and will now always have someone read through my work before submitting it.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

Having missed one class, being present is a must when it comes to this class. While we were yes, in a 4 week session, each class allowed your mind to be pushed in a new direction but always w/a connection to the day before. I feel that I am a stronger reader & writer because of this course!

PLEASE EVALUATE:

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

I appreciated the "writing about writing" approach because it was more comprehensive and more useful in trying to improve my writing. I also appreciated learning through different media to change things up (video, Prezi, etc.)

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

I was always satisfied with the instructor's explanations or reiterations when I didn't understand a concept. He was great at scaffolding, or providing just the right amount of support on assignments/projects.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

I think class discussions would have been improved by greater participation. I was disappointed in my classmates who didn't have the book when you emailed them to have it by the start of class. I don't think it's your responsibility to put the book on blackboard for lazy or unprepared students.

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

This course was enjoyable and informative, it is unfortunate that it was only four weeks because I felt rushed. Writing About Writing is a particularly effective book to choose because it set up each chapter then used articles that were relevant and connect to explain.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

Netter was an excellent professor. He encouraged independent thought while providing guidance when needed. The dry humor he brought to class I thoroughly enjoyed.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

I think I was a good student. I attended every day (save the allowed misses) and participated in group discussions. The readings during the first two weeks were difficult for me because I was taking another accelerated (two weeks) class that was upper-level and required me to read & write even more, for this I slacked a little in the beginning (I skimmed the articles). Overall my writing skills have improved along w/ my ability to read academic articles.

PLEASE EVALUATE:

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

Writing about writing is an excellent text, especially for this course. Reading response assignments encouraged students to fully analyze the text they had to read.

The projects were a fair workload and applied the concepts we learned. The course was very well organized and the instructor kept us on track.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

The instructor has a passion for helping students learn. He encourages individual thinking and helps students understand concepts before moving on.

Though he is a liberal instructor, he is prompt and discourages tardiness or incompletion of work, which also encouraged students to excel.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

I did not perform as well as I had hoped. This is due to late work and tardiness. The instructor was easily approachable and helped me perform better in the course.

PLEASE EVALUATE:

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

I really enjoyed the course ; material. The subject was very interesting ; the work was helpful ; provocative. The only thing I would change is making the reading responses online. Also putting more of the material on the web would help.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

What can I say about Mr. Vetter? One of the best teachers I have had in college. I like to think of myself as a young academic, and I really do critique all of the professors I have had. Mr. Vetter was inspiring ; knowledgeable. He obviously knew the material deeply, and has a passion for teaching. I would recommend him to anyone who asked. (A+)

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

I think I contributed to class discussion, especially when we broke off into groups. Overall though, I think the class was set up in a way to provide a positive atmosphere for learning.

(Maybe have teacher pick the groups, I know it seems like we are getting more freedom, but sometimes a little awkward.)

A. THE COURSE AND THE MATERIALS (You may wish to comment on questions 1-3)

The course overall was very beneficial! It got me to look at writing in a way I never have before and actually challenged me. I liked how I only had to buy one book, and that book was very useful & interesting.

B. THE INSTRUCTOR (You may wish to comment on questions 4-13)

Matthew Vetter is an exceptional instructor! He helped me understand new concepts, increased my use of vocabulary, and also challenged me as a writer. He is very helpful in answering questions, and also always made sure he met with everyone in the class on a regular basis. He is very timely when grading things which is awesome, and he is an overall terrific professor who is extremely knowledgeable in this area.

C. SELF-EVALUATION. Please comment on the role you and your classmates played in making this class a success or failure (class participation, attendance, preparation, etc.).

I tried to participate as much as possible. Doing group work allowed everyone to get involved as well as work with others. I liked how attendance was recorded because I made sure I came to class everyday & on time. I was prepared majority of the time and found this class to be very interesting.
